

# OBAIDA ALFROUKH

Communications and Computer Engineering

0795925291 froukhobaida18@gmail.com Amman, Al-Estqlal Suburb

## PROFILE

A recent graduate from Al-Zaytoonah University of Jordan with a B.Sc. in Communications and Computer Engineering, and I also hold a diploma from Arab Community College. I gained hands-on experience through an internship at Globitel, where I worked as a Technical Support Engineer, focusing on troubleshooting and Linux (CentOS) systems. I hold an international CCNA certification and scored 91.1% in the Comprehensive Exam from Al-Balqa Applied University, ranking 2nd nationwide in Jordan (2023). I am passionate about networking and cloud computing and eager to grow in these fields.

## EDUCATION

|                                       |  |
|---------------------------------------|--|
| 2023 - 2025                           | <b>Bachelor's Degree in communications and Computer Engineering</b>  |
| Al-Zaytoonah University of Jordan     | <b>GPA: 86.5 / 100</b>   |
|                                       | <b>Academic Projects :</b>   |
|                                       | Hazard Detection System  |
|                                       | <ul style="list-style-type: none"><li>Graduation Project – Grade: 95/100</li><li>Designed a real-time hazard detection system using IoT and Flutter for live alerts.</li></ul>   |
|                                       | Smart Door Lock System   |
|                                       | <ul style="list-style-type: none"><li>Embedded Systems – Grade: 88/100</li><li>Developed a secure smart lock using microcontrollers and embedded programming.</li></ul>  |
|                                       | Training Finder Database   |
|                                       | <ul style="list-style-type: none"><li>Database Systems – Grade: 94/100</li><li>Designed an ER diagram and implemented SQL queries to help students find training opportunities</li></ul>   |
| 2020 - 2022                           | <b>Diploma in communications and Computer Engineering GPA: 74 / 100</b>  |
| Arab University College of Technology | I have gained solid knowledge and practical experience in networking, including protocols, routing, switching, security, and wireless communications. I worked with Cisco Packet Tracer and developed strong skills in TCP/IP, LAN/WAN, and troubleshooting. |
